EDUCATION

BTech (ENTC), SVERI's College of Engineering 79.63%	2019 – 2023 Pandharpur
HSC (XII Science), Maharashtra Secondary and Higher Secondary Vidhyalya 56.77%	2018 – 2019 Barshi
SSC (X), Maharashtra Vidhyalya 76.40%	2016 – 2017 Barshi

PROJECTS

Mess Management And Prediction System
- I have structured a JAVA application using JDBC for the mess management system.
- I have used the concepts of collection and linear regression algorithm in java to structure this application. This project is console based application.

Smart Vacuum Cleaner Robot
- It is a cleaning robot which uses vacuum pressure for cleaning floor dust.
- It is built using Arduino and Ultrasonic sensors.

Library Management System
- I have structured a JAVA application for the library store management system.
- I have used the concept of Collections in JAVA to structure this application.

COURSES

Java Fullstack Development *Giri's Tech Hub*	08/2023 – present Pune, India

- Pursuing Java Fullstack Knowledge from the institute named Giri's Tech Hub.
- I have completed the programming languages like C, C++ , CORE JAVA along with the OOP's concepts.
- I have completed HTML, CSS, Bootstrap,Javascript MySQL.
- Currently studying Backend technologis like Servlet, jsp and Frontend technologies like React.

Database Management System *Infosys Springboard*	12/2022

- Basics of DBMS
- SQL language

TECHNICAL SKILLS

Technical Knowledge:
C | C++ | Core Java | MySQL | HTML | CSS | Bootstrap | JavaScript

Operating Systems:
Windows 7/8/10/11

MS Office:
PowerPoint | Word

INTERESTS

Drawing | Cooking | Designing
